

SAKSHI

sakshishetty364@gmail.com | +91 7975302235 | Kundapura, Karnataka | linkedin.com/in/sakshishetty03

PROFESSIONAL SUMMARY

Analytical and detail-oriented CSE (IoT, Cybersecurity & Blockchain) student with hands-on experience in Data Analysis, Business Analytics, and Decision Sciences. Proficient in Python, SQL, Power BI, and Statistical Analysis with proven ability to derive actionable insights from complex datasets. Experienced in building interactive dashboards, data visualization, and business intelligence reporting. Strong problem-solving and communication skills with a passion for data-driven decision making.

EDUCATION

B.E. in CSE (IoT, Cybersecurity & Blockchain) <i>Alva's Institute of Engineering and Technology, Mudbidri</i>	2023 – Pursuing
Senior Secondary (Class XII) – Science <i>Shri Venkatramana PU College, Kundapura Karnataka State Board</i> Percentage: 84%	2023
Secondary (Class X) <i>Government High School, Kalavara Karnataka State Board</i> Percentage: 92%	2021

TECHNICAL SKILLS

Data Analysis & Visualization: Power BI, Statistical Analysis, Data Visualization, KPI Reporting, Data Modeling

Programming & Database: Python (Pandas, NumPy, Matplotlib), SQL, Power Query

Business Analytics: Decision Making, Problem Solving, Analytical Thinking, Business Intelligence

Other: Cybersecurity Tools, Networking Basics, MS Office Suite, Communication Skills

PROJECTS

E-Commerce Customer Behavior Analysis <i>Tools: Python (Pandas, Matplotlib), Power BI, Statistical Analysis</i>	Feb 2026 – Mar 2026
---	---------------------

- Analyzed 3,900+ customer records to identify shopping behavior patterns, product preferences, and payment trends using Python and statistical methods.
- Built an interactive Power BI dashboard with 6+ visualizations enabling data-driven decision making for business stakeholders.
- Applied analytical thinking to extract actionable insights — identified top revenue-generating customer segments and seasonal sales trends.
- Demonstrated end-to-end data analysis pipeline: data cleaning, transformation, statistical analysis, and visualization.

Smart Street Light System <i>Tools: IoT, Sensors, Embedded Systems</i>	December 2025
--	---------------

- Designed IoT-based automated system using real-time sensor data analysis to optimize energy consumption through automated lighting control.
- Applied problem-solving and analytical thinking to reduce manual intervention through data-driven control logic.

WORK EXPERIENCE

Business Intelligence Intern <i>FICE Education Virtual</i>	Feb 2026 – Mar 2026
--	---------------------

- Developed 4+ interactive Power BI dashboards enabling stakeholders to make data-driven decisions using real-time KPI tracking.
- Performed end-to-end data analysis — cleaning, transformation, modeling, and visualization — improving reporting accuracy significantly.
- Analyzed business trends and KPIs using statistical methods to generate actionable insights supporting strategic decision making.
- Applied Power Query for data transformation, reducing data preparation time and improving analytical efficiency.

Data Analytics Virtual Intern <i>Deloitte Virtual Simulation</i>	2025
--	------

- Simulated real-world data analyst responsibilities — performed data analysis, created visualizations, and generated business insights.
- Strengthened problem-solving and analytical thinking through structured business analytics and decision science tasks.

CERTIFICATIONS

- Deloitte Data Analytics Virtual Internship (2025)** – Data Analysis, Visualization & Business Insights
- Mastercard Cybersecurity Virtual Simulation (2025)** – Threat Analysis & Incident Response
- NPTEL: Joy of Computing with Python** – IIT Faculty certified Python programming course
- Power BI for Business Applications – AICTE (4 Weeks)** – Business Intelligence & Data Visualization

ADDITIONAL INFORMATION

Languages: English, Kannada, Hindi

Interests: Data Analytics, Business Analytics, Decision Sciences, Cybersecurity, Problem-Solving
